

# Assembly instructions for the New England Trolley

- A: Left hand leg assembly
- B: Right hand leg assembly
- C: Worktop
- D: Shelf x 2
- E: Front crossbar x 2
- F: Rear panel
- G: Central drawer support
- H: Drawer front x 2
- J: Drawer side panel x 4
- K: Drawer base x 2
- L: Drawer rear panel x 2
- M: Lockable wheel x 2
- N: Non-Lockable wheel x 2
- O: Ceramic drawer knob & screw x 2
- P: Wooden dowel x 6
- Q: Large assembly screw x 19
- R: Drawer screw x 16
- S: Small screw x 16

## Step 1

Push 2 Dowels into the holes on each end of the rear panel.

With the left leg assembly (A) on it's side, position the rear panel (F) onto the leg assembly and secure with 2 assembly screws (Q).

Take each front crossbar (E) and locate onto leg assembly. Make sure the counter-sunk holes are facing up on the top bar, and down on the lower bar (shown by arrows). Secure crossbars using assembly screws (Q).

## Step 2

Push 2 dowels into the holes in the end of the central drawer support (G). Position the dowelled end of the central drawer support onto the rear panel and secure with an assembly screw (Q). The other end of the central drawer support should be positioned between the front cross bars, and secured with an assembly screw through the top and lower cross bars.

### Step 3

Position each shelf (D) onto the leg assembly and secure each shelf with 2 assembly screws (Q) on the underside of the shelf.

### Step 4

Position the right hand leg assembly (B) onto the trolley ensuring the tabs on the ends of the shelves, rear panel and front cross bars locate into the corresponding slots on the right hand leg assembly. Secure each position with 8 assembly screws (Q).

### Step 5

Secure drawer rear panel (L) to each drawer side panel (J) using 2 drawer screws (R) on each side (the small drawer runner wheel should be nearest the back of the drawer). Slide the drawer base (K) into place in the grooves. Position front panel and secure with drawer screws (R). Fix ceramic knob (O) to the drawer front.

### Step 6

With legs facing upwards fix the locking wheels (M) to the front legs using 4 small screws (S) per wheel and fix the non locking wheels (N) to the rear legs using small screws (S).

Carefully place turn the trolley onto it's wheels, slide the drawers into place and position worktop.

Congratulations, your New England Trolley is complete.
